- What you should expect from the appearance of your Corian® Endura™:**
1. Color variation within an installation: Since Corian® Endura™ is made from natural ingredients, variations in the color, size, shape and pattern of distribution of the minerals and the tone of the background, are inherent and unique characteristics to be expected with this product. If the natural variation within a monochromatic color is visible in an installation from a distance of 7 feet (2.12 m) or greater with uniform lighting (no spotlights or high intensity lighting) it will be considered to be a material defect and covered by this warranty, but you must report it within thirty (30) days of installation. If the color variation is not visible from 7 feet (2.12 m) or if it is not reported within thirty (30) days of installation, it will be considered to be a normal variation and not covered by this warranty.
  2. Color Samples: Samples are only representative and are not an exact replication of what will be installed in your home. Variations in the color, gloss, finish, aesthetics patterns and the tone of the background are inherent and unique characteristics to be expected with this product. For colors that contain non-directional patterns or veining, samples of these colors may not always capture the overall aesthetic of the product. This does not affect the product performance in any manner. Your countertop will not be replaced under this warranty due to these variations.
  3. This warranty covers seam performance when using Corian® Joint Adhesives for indoor installation of Corian® Endura™ countertops only. This warranty does not cover the appearance of the seam. Furthermore, placement of the seams is at the discretion of the fabricator/installer, using color coordinated seam adhesive. Seam failures unrelated to the countertop installation are not covered by this warranty. Silicone seams do not constitute part of the Corian® Endura™ installation and accordingly are not covered by this warranty.

Improper care of Corian® Endura™ may result in staining, scratching, chips in the surface, cracking or seam separation.

**Chips:** Chips or any other damage created by impact are not covered under this warranty.

**Scratches:** Corian® Endura™ is extremely scratch resistant, however, it can be scratched when proper care is not used, and accordingly, scratches in your Corian® Endura™ installation are not covered by this warranty. Cutting boards should always be used as part of your proper care and maintenance.

**Staining:** Corian® Endura™ is stain-resistant, but not stain proof. Stains can usually be removed with chemical cleaners. Staining is not covered by this warranty. You can view our stain cleaning guidelines on our website shown at the end of this document.
